

ATMOSPHERE

Sit right at the back of the church. How do you think someone would have felt coming in here centuries ago if they just lived in a tiny cottage?

How do you think people from modern houses and flats feel in old churches today?

How do you feel in this church? Do you think modern churches are more easy to be comfortable in than old ones? What might you find in an old church that you wouldn't find in a new one? Or in a new church that wouldn't be in an old one?
